

DAY TO RIDE

On the beach looking out to sea
I dreamed a wave, a thousand feet
God was out there on the wave
Getting' speed coming down the face

Chorus:

Time to leave, Time for other worlds than these
Time to fly, Pack your memories
Time to die, Kick the tire, light the fire
Never so alive, This'll be a good day to ride

Storm coming, ocean change
Turning awesome wavescapes
Cliffs and canyons made of waves
Close out my remaining days
